bhoksi

Gogo's Holiday Camper

Print it

1. Print every page at 100% / "Actual size" (no "fit to page"). 6 pages on A3.
2. Check the 50 mm square measures exactly 50 mm.
3. Tape the pages together using the corner marks (page order is printed on each page).

Build it

1. Press out the chassis, camper body and pop-up roof. Crease every fold.
2. Fold up both sides of the body, wrap the nose, windscreen and roof round and glue the tabs inside. The side door stays hinged: push it open.
3. Fold the chassis, push the axles through and fit the wheels and hubcaps.
4. Glue the body on the chassis. Fold the pop-up roof and glue its front edge to the roof so it lifts at the back.
5. Slot the braai carrier into the back and put the wors on. Gogo is ready to go.
