bhoksi

Hydraulic Arm

Print it

1. Print every page at 100% / "Actual size" (no "fit to page"). 8 pages on A3.
2. Check the 50 mm square measures exactly 50 mm.
3. Tape the pages together using the corner marks (page order is printed on each page).

Build it

1. Fold the base and glue the turntable disc on top.
2. Fold the two towers double and glue them to the turntable; fit the shoulder dowel.
3. Build the boom and forearm, then clip the syringes on where the template marks them.
4. Fill each syringe pair with water, join them with the tubes, and push to move.
