bhoksi

# Mielie Rocket

## Print it

1. Print every page at 100% / "Actual size" (no "fit to page"). 10 pages on A4.
2. Check the 50 mm square measures exactly 50 mm.
3. Tape the pages together using the corner marks (page order is printed on each page).

## Build it

1. Press out the launch pad, mielie body, mielie tip, three husk leaves and the countdown board. Crease every fold.
2. Fold the eight body walls round the base and glue the seam. The hatch stays hinged: pop it open.
3. Fold the tip's eight kernel triangles in to a point and glue them, then glue the tip on top.
4. Fold each husk leaf over its foot and glue it to the body at a corner, so the leaves flare out like fins.
5. Stand the mielie on the pad, glue on the silk tassel and count down: 3, 2, 1, lift-off!
