bhoksi

Birthday Party Build Pack

Print it

1. Print every page at 100% / "Actual size" (no "fit to page"). 2 pages on A3.
2. Check the 50 mm square measures exactly 50 mm.
3. Tape the pages together using the corner marks (page order is printed on each page).

Build it

1. Press out the body and fold it on every line: sides up, then wrap the nose, bonnet, windscreen, roof and boot round.
2. Push a straw through each pair of axle holes before you glue the last tab, so the axles turn smoothly.
3. Glue the body shut along its tabs and hold each one for 30 seconds.
4. Glue the wheel discs together in pairs, push an axle through each straw and glue a wheel on each end.
5. Add your stickers and your name, then line up on the start line.

50 mm
