bhoksi

RC Fire Engine

Print it

1. Print every page at 100% / "Actual size" (no "fit to page"). 10 pages on A3.
2. Check the 50 mm square measures exactly 50 mm.
3. Tape the pages together using the corner marks (page order is printed on each page).

Build it

1. Fold the three chassis frames; clip in the drive pod and the steering servo.
2. Fold the pump body and cab and glue them on. Clip the Brain into the body roof.
3. Clip the swing servo under the turntable and the raise servo on top of it.
4. Fold the ladder and push its heel onto the raise servo's horn.
