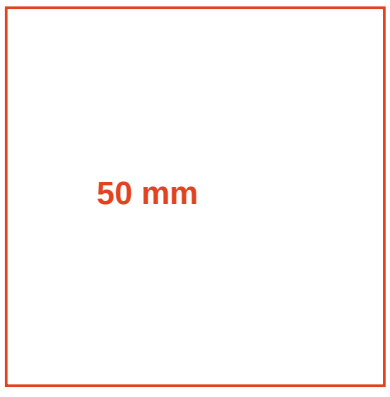
Shape Sorter Box

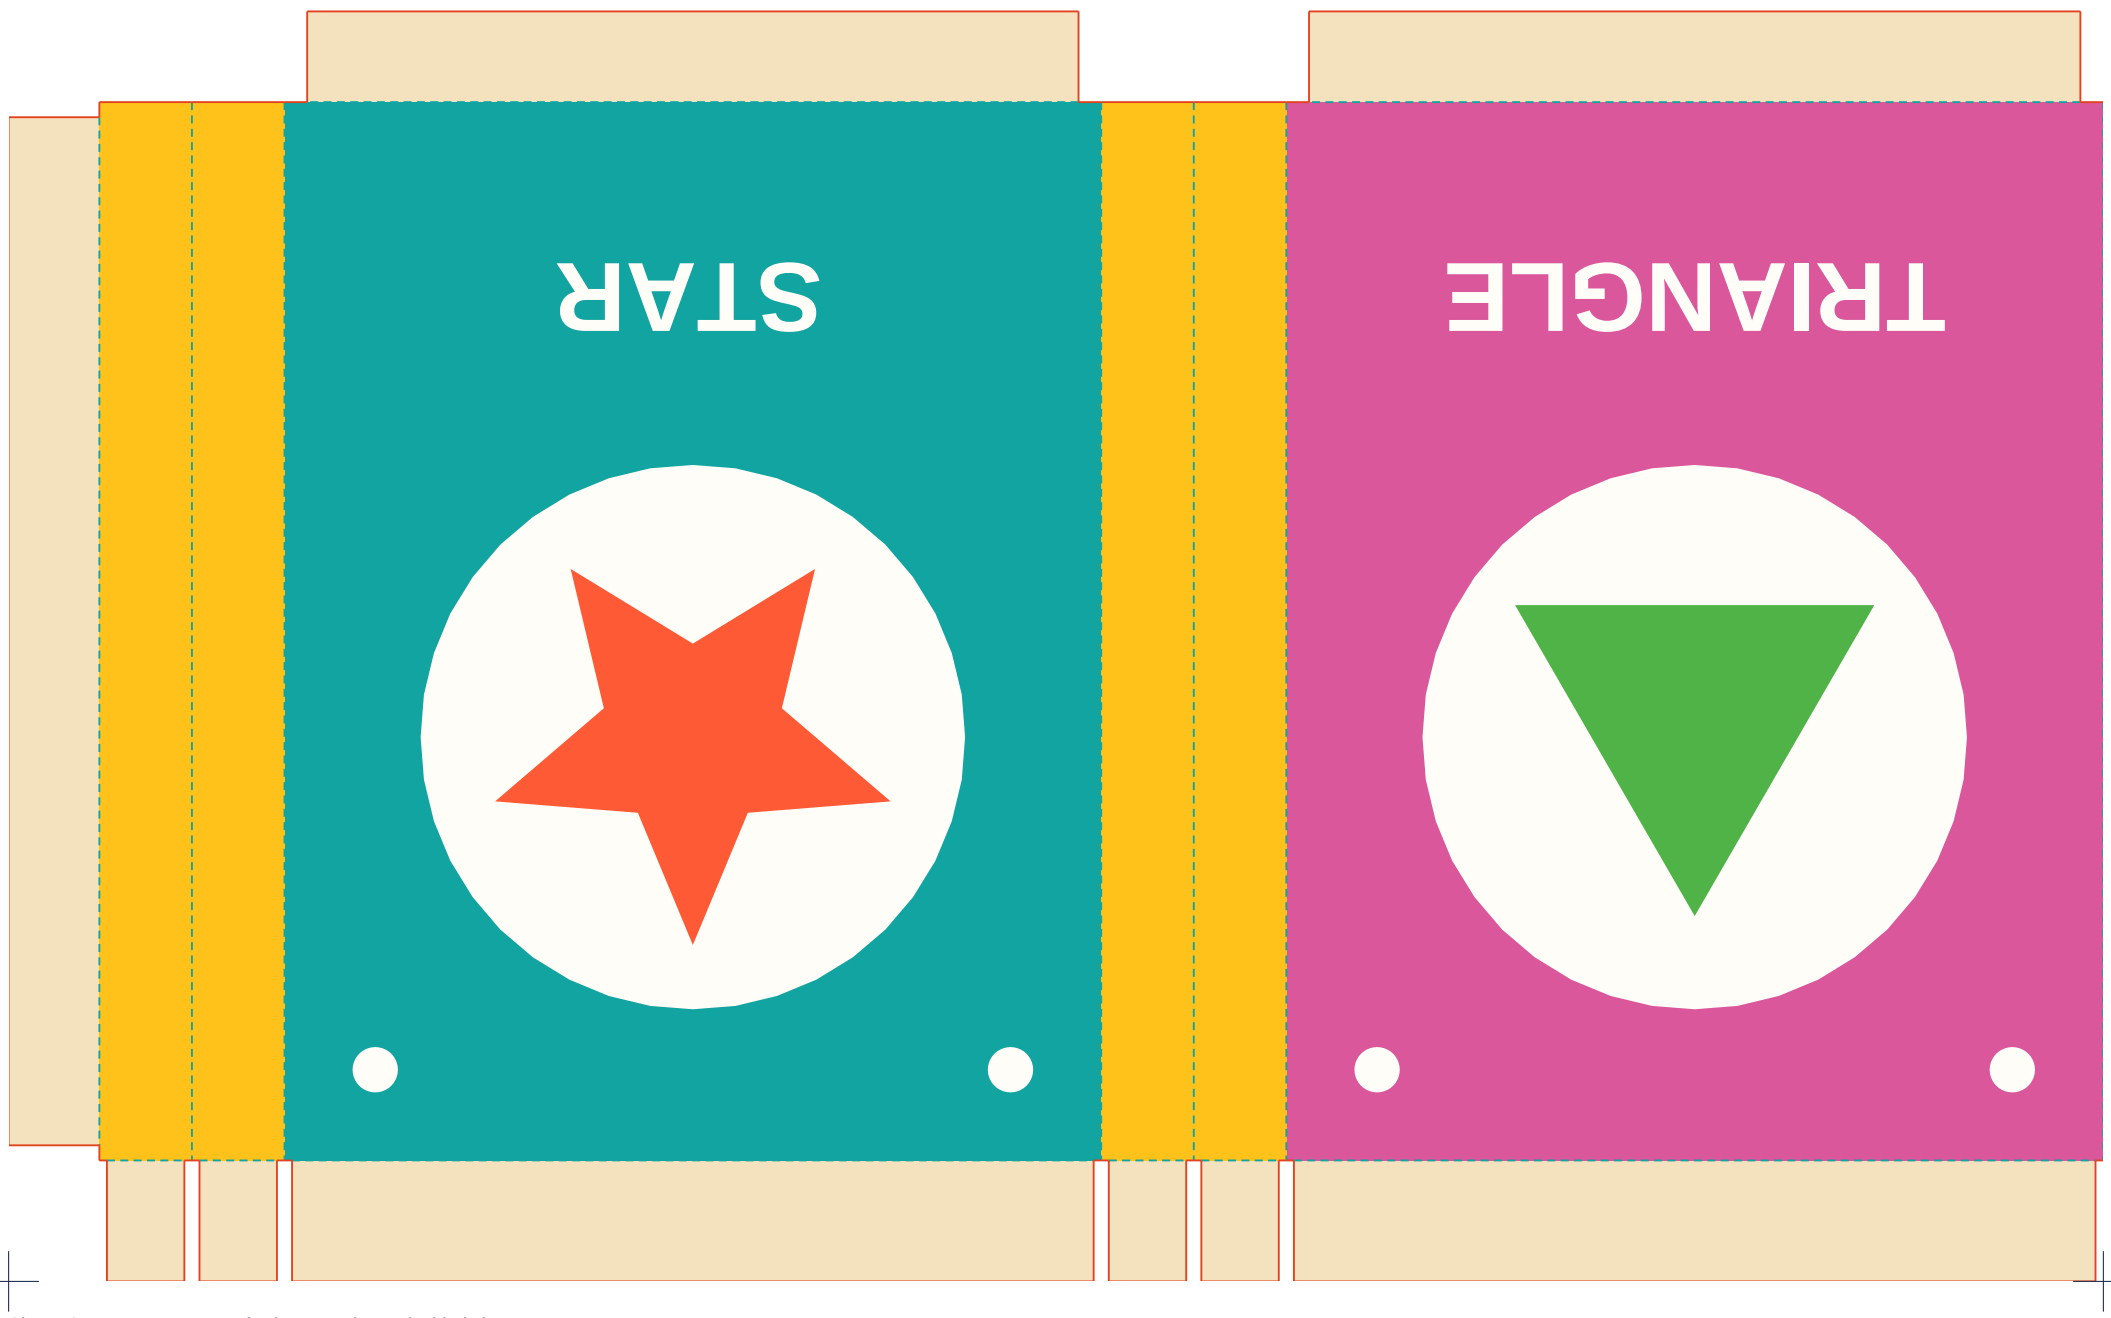
Print it

1. Print every page at 100% / "Actual size" (no "fit to page"). 7 pages on A3.
2. Check the 50 mm square measures exactly 50 mm.
3. Tape the pages together using the corner marks (page order is printed on each page).

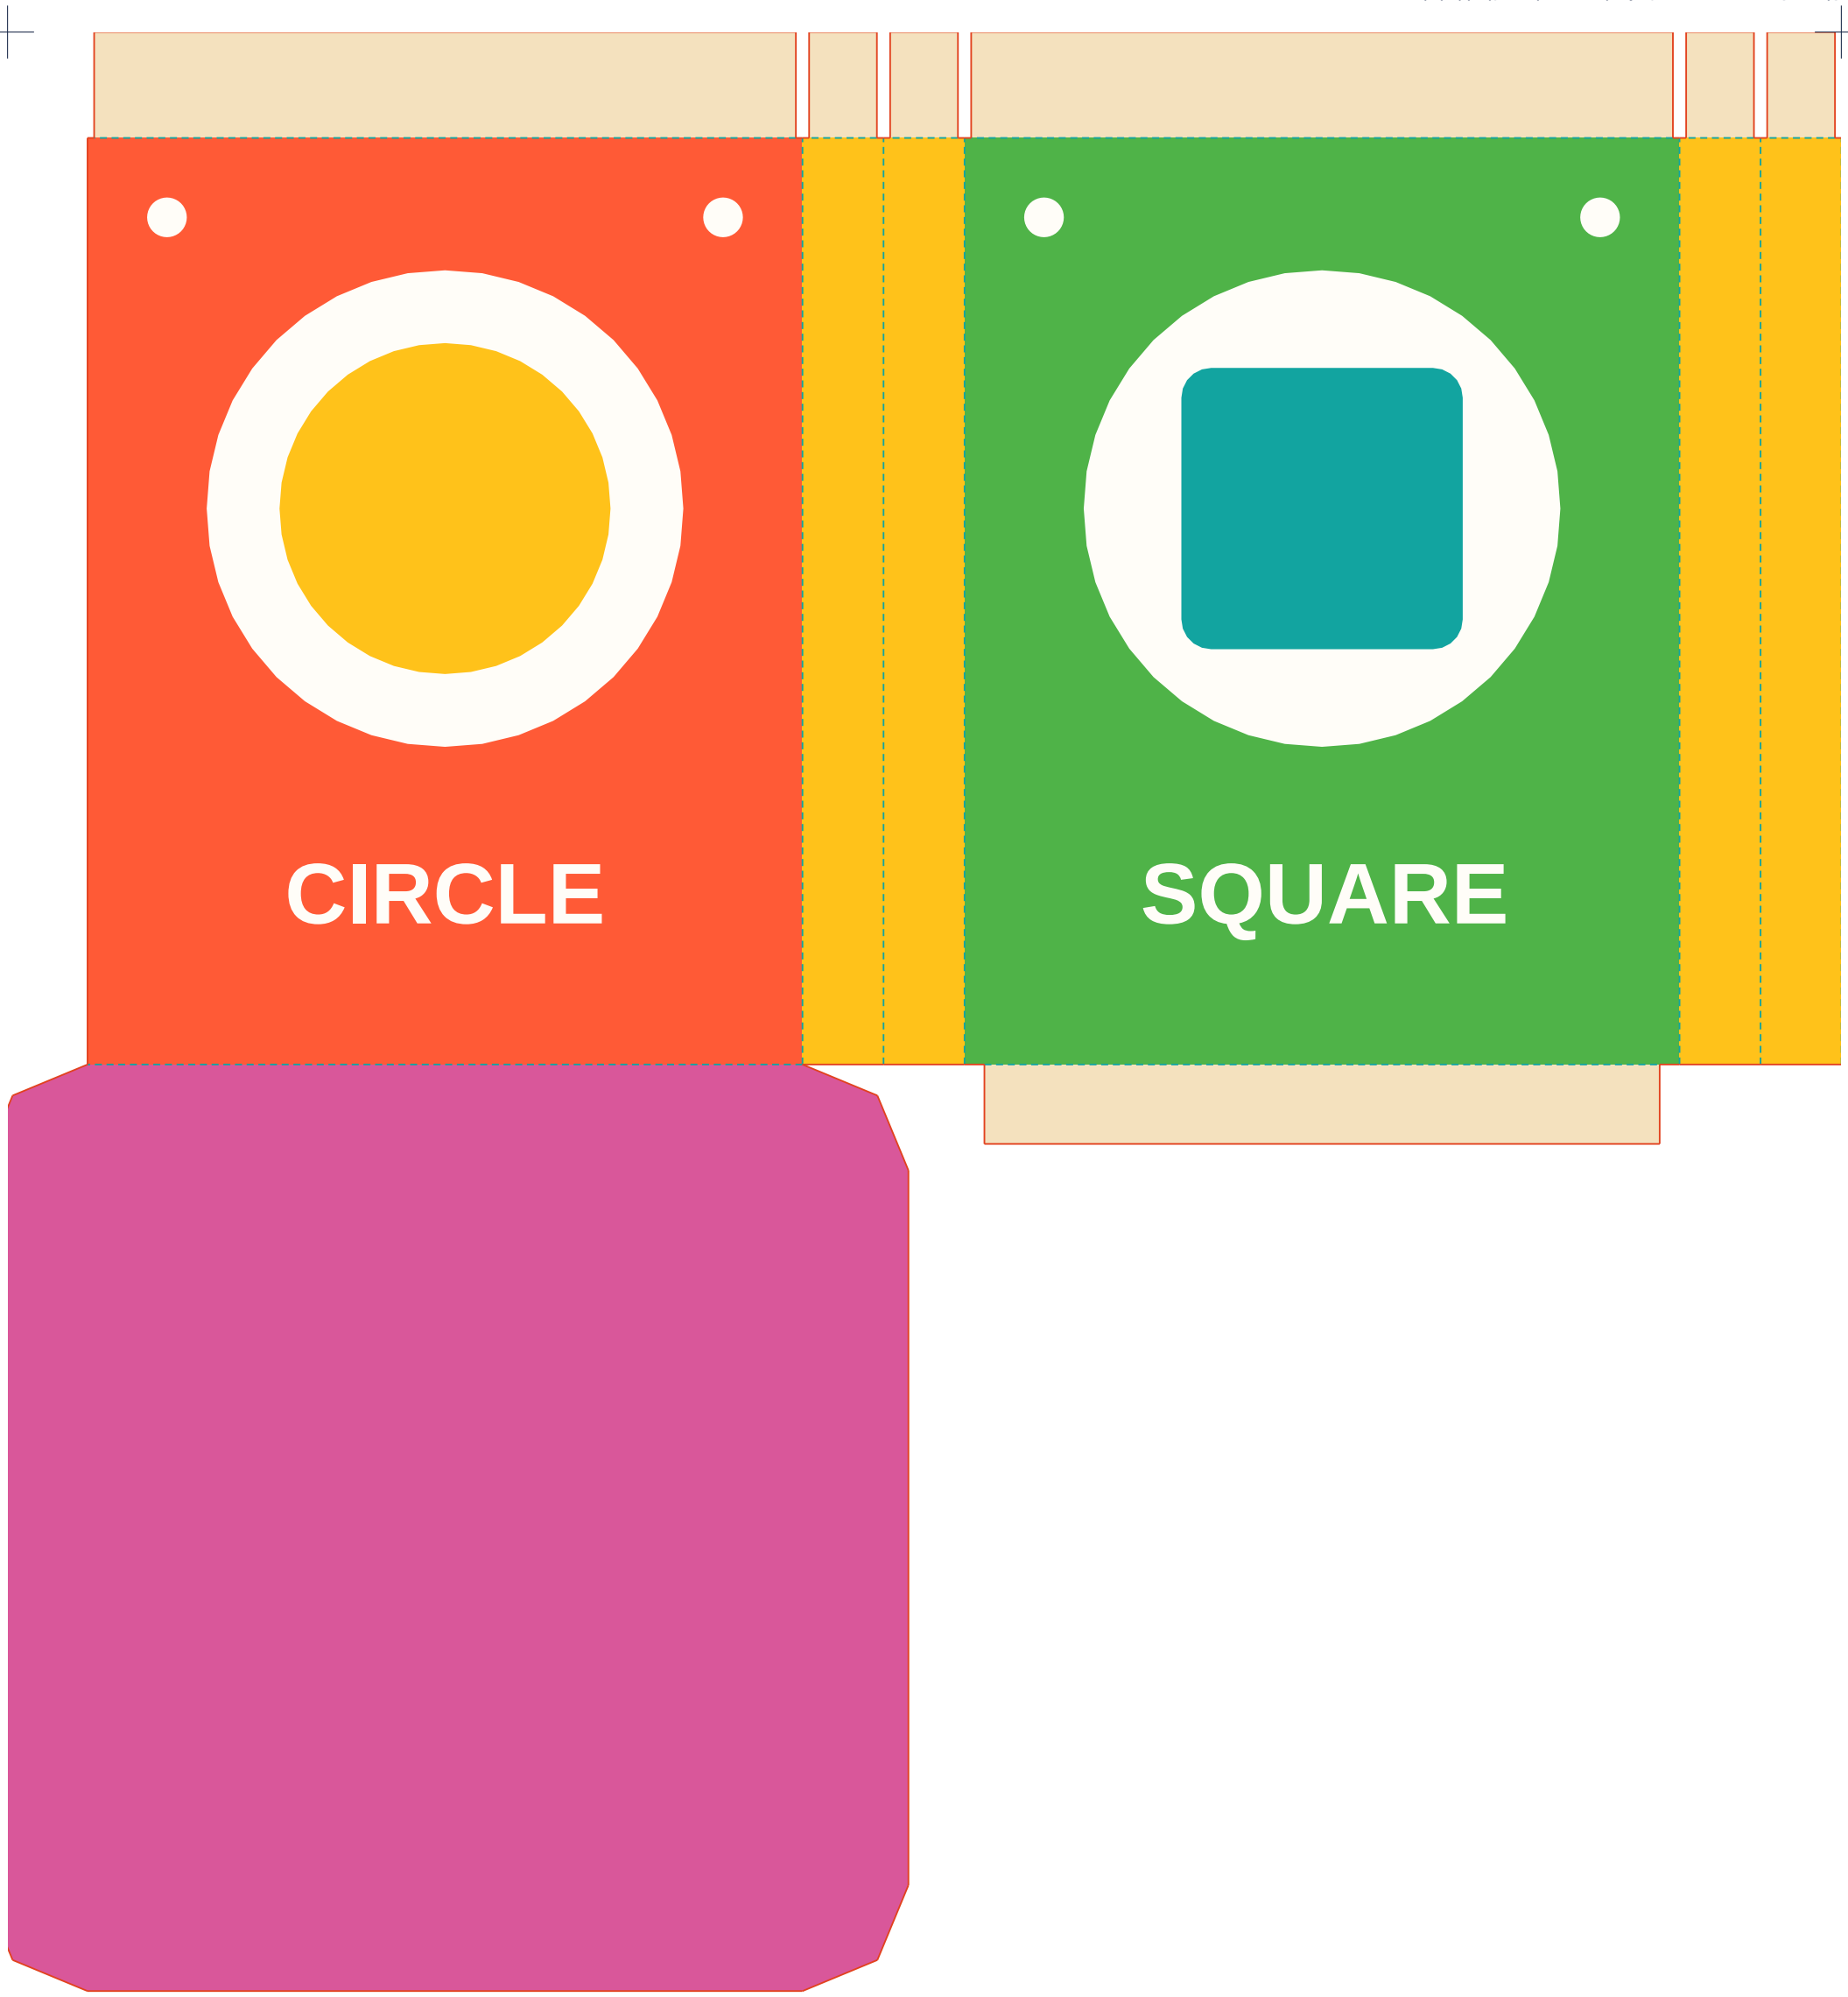
Build it

1. Fold the box: Fold the four walls up round the base. Glue the tabs under the floor and the last tab inside the seam.
2. Fold the rim: Fold the rim over inside, all the way round, and glue it down. No cut edge is left for little hands.
3. Fold the lid: Fold the lid the same way, rim and all. Don't glue it to the box: it lifts straight off to tip the shapes out.
4. Fold the shapes: Fold and glue the cube, the cylinder, the triangle and the star. Hold each seam for 30 seconds.
5. Post them!: Pop the lid on and post each shape through its own hole. Say the shape and its colour together.





STAR
TRIANGLE



CIRCLE
