bhoksi

Spaza Shop

Print it

1. Print every page at 100% / "Actual size" (no "fit to page"). 102 pages on A4.
2. Check the 50 mm square measures exactly 50 mm.
3. Tape the pages together using the corner marks (page order is printed on each page).

Build it

1. Fold the shop floor: skirts down, feet in (flutes run across the short side). Glue the storage shelf's flanges inside the counter, then fold the counter into a long box (bottom, front, top, back), glue the back tab down, then fold the two ends in and glue them to the end tabs.
2. Fold the hems over on the shop wall and the two side walls and glue them on the floor. Fold each shelf's price strip up underneath, slide the tongues through the side-wall slots and glue the back flange to the wall.
3. Glue the awning tab along the front of the top shelf, fold its two layers together, then fold the sign double and glue it on top.
4. Fold the till, slide the drawer in through the front and glue the two dividers in the drawer.
5. Fold the groceries, press out the play money and open for business!
